TABLE OF CONTENTS

AWAY CHEMICAL

The original manufacturer of A/C drain protection products since 1968. Our latest catalog includes a wide selection of EPA registered odor and drain problem treatments. Our products are used in industry, hospitals, schools, nursing homes, hotels, motels, apartment and office complexes. If it has an air conditioner, it probably uses an Away Chemical Product

Pan-Gel. Away Chemical's Exclusive Geltabs	3

Pan-Gel

Pan-Gel™ Tablets Lock into Place Up to 6 months protection

Does not release “chlorine” or other toxic fumes

Starts working immediately ▪ Slow and continuous release ▪ Prevents costly repairs

Away Chemical Corp., the originator of chemical drain pan treatment moves into the next generation with Pan-Gel tablets.

Pan-Gel tablets is a unique approach to A/C drain pan treatment. As the moisture drips or flows over the Pan-Gel tablet it forms a gel, locking the tablet into place.

This locking action does not allow the tablet to move or block the drain line. Pan-Gel tablets uniquely designed formula with AT-8 turns the tablet into a very slow gel release giving it a positive, long lasting and aggressive cleaning action.

The tablet will clean sludge and accumulations in condensate drain pans and lines, eliminating plugged condensate drain lines and stale water odors.

Pan-gel Packaging

3 ton	UT-3-1	1 Tablet per card	24 cards per case
	UT-3-6	6 Tablets per tube	12 tubes per case
	UT-3-B	144 Tablets per box	1 box per case
7 ton	UT-7-1	1 Tablet per card	24 cards per case
	UT-7-6	6 Tablet per tube	12 tubes per case
	UT-7-B	108 Tablets per box	1 box per case
15 ton	UT-15-1	1 Tablet per card	24 cards per case
	UT-15-3	3Tablets per jar	144 jars per case
	UT-15-B	Tablets per box	1 box per case

Pan-gel tablets are computer room safe

Pan-Gel Jr.

- UTJ -1.5
Green Up to 1.5 tons
- UTJ-3
Yellow Up to 3 tons
- UT-5
Pink Up to 5 tons

Pan-Gel Jr. geltabs for long lasting drain protection in many applications. All Pan-Gel Jr. geltabs lock in place and turn into a metered time release gel. This time release gel will give up to 90 days protection. Eliminates overflows caused by plugged condensate drains and pans.

Pan-Gel Jr. Geltabs Packaging

UTJ-1.5	36 Geltabs per box	6 boxes per case
UTJ-3	18 Geltabs per box	6 boxes per case
UTJ-5	12 Geltabs per box	6 boxes per case

Pan-Tab

- 240-W
Pan-Tab White Up to 3 tons
- 240-Y
Pan-Tab Yellow Up to 2 tons
- 240-B
Pan-Tab Blue Up to 1 ton

Pan-Tabs are formulated with AT-8, a powerful cleaning detergent that immediately breaks up sludge and slime. Easy to use and completely soluble. Does not form any deposits in the pan or drain line. Safe, non-toxic, non-corrosive. Cleans sludge, scum and other accumulations in A/C pans and drain lines. Eliminates overflows caused by plugged condensate drains and pans.

Pan-Tabs Air Conditioning Tablets Packaging

Part# 240-W	48 tablet box
Part# 240-Y	48 tablet box
Part# 240-B	48 tablet box

Chem-Tab

EPA Registered

Part # 251-B 1500 Tablet Jar

Part # 251 - 100 Tablet Jar

Part # 253 - 6 Tablet Pack

Chem-Tab condensate drain pan tablets is a safe pre-measured tablet that keeps the drain pan clean of slime, scum and other accumulations.

- Plates pan for a positive, prolonged cleaning action
- Starts working immediately
- Controls the growth of germs, fungi, bacteria, slime and black algae
- Disperses solids down the drain
- Opens clogged drain lines
- Stops overflowing drain pans
- Prevents costly repairs
- Eliminates unpleasant water odors
- Does not release any chlorine or other noxious or toxic fumes

Chem-Tab is computer room safe.

Active Ingredient:

N-Alkyl Dimethyl benzyl ammonium chloride

Used in:

Room Air Conditioners ▪ Fan Coils ▪ Refrigerators ▪ Vending Machines ▪ Humidifiers

Chem-Tab 180

- Stops odors and overflow of A/C condensate pans
- Eliminates build-up of blockages in pan and drain lines
- Full strength treats up to 3 tons for 6 months

Chem-Tab 180 is the original, safe, easy to use, pre-measured tablet treatment for air conditioner condensate pans and lines. The tablets will open up clogged condensate drain lines and also prevent these drain lines and pans from plugging up: preventing damage to walls, ceiling, floors, furniture and carpets coming from drain pan overflows.

Chem-Tab tablets have been engineered to be a cost cutting, labor saving treatment for condensate drain pans and lines. One tablet will treat a 3 ton A/C unit for up to 6 months.

This simple, positive protection from each tablet formulated with the compound AT-8 and "Invisio-Guard" cleans slime, scum and other accumulations in condensate pans and drain lines. Stale water odors are eliminated. Economical - each tablet will give protection up to 6 months in an air conditioner.

Chem-Tab 180[™] Air Conditioner Tablets Packaging

Part # 252-6	12 tablet jar	6 jars per case
Part # 252-1	1 tablet per card	24 cards per case
Part # 252-B	125 tablet jar	1 jar per case

Clogg-Away™

90 Day protection
Treats up to 5 Tons

Fastest acting compound on the market today - bar none. Clogg-Away with AT-8 plates the pan with "Invisio-guard" for a positive prolonged cleaning action that continues to work for days and days. This Invisio-guard formula eliminates any additional maintenance on your part.

Used in:

Room Air Conditioners * Fan Coils * Refrigerators * Vending Machines * Humidifiers

Clogg-Away Air Conditioning Tablets Packaged

Part # 290-12	12 tablet jar	12 jars per case
Part # 290-B	125 tablet jar	1 jar per case

Evap-O-Matic

Tablet Treatment for
Evaporative Coolers

Use one Evap-o-Matic
tablet per 5300 CFM
Repeat treatment
every 3 months

Amazing chemical action, formulated with AT-8 produces clean fresh air eliminating swampy odors. Adds life to pumps, fans and pads.

Special chemicals wet the cooling pads allowing them to hold more water and achieve faster, more comfortable cooling.

Evap-O-Matic Packaged

Part # 254	12 tablet jar	12 jars per case
Part # 254-B	125 tablet jar	1 jar per case

Pan-clear

261-B

261

Each Pan-clear tablet will treat up to a 2 ton unit for 4-6 weeks

Pan-clear tablets are so fantastic because they are formulated with the compound AT-8, a powerful cleaning detergent that immediately breaks up sludge and slime. Pan-clear tablets are specifically formulated for units up to 2 tons.

Pan-clear cleans sludge, scum and most other accumulation in condensate drain pans and lines and eliminates most of the extra maintenance such as overflows and water damage caused by plugging condensate drains and pans.

The continued use of Pan-clear tablets stop, eliminate and prevent odors that start in untreated condensate drain pans.

Pan-clear tablets are easy to use, completely soluble, do not form any deposits in the pan or drain and are safe, non-toxic and non-corrosive

Used in:

Room Air Conditioners * Fan Coils * Refrigerators * Vending Machines * Humidifiers

Pan-clear Air Conditioning Tablets Packaging

Part 261	100 tablet jar	12 jars per case
Part 261-B	1500 tablet jar	1 jar per case

Value-tab

271

271-B

Each Value-tab tablet will treat up to a 1 ton unit for 4-6 weeks

Value-tab tablets are more powerful than ever with the compound AT-8 a powerful cleaning surfactant that immediately breaks up sludge and other accumulations. Treats units up to 1 ton.

Value-tab tablets stop, eliminate, and prevent odors that start in untreated condensate drain pans.

Value-tab tablets are easy to use, completely soluble, do not form any deposits in the pan and drain and are safe, non-toxic and non-corrosive.

Used in:

Room Air Conditioners * Fan Coils * Refrigerators * Vending Machines * Humidifiers

Value-tab Air Conditioning Tablets Packaging

Part 271	140 tablet jar	12 jars per case
Part 271-B	1680 tablet jar	1 jar per case

Pan-Bar Gold

Air Conditioning & Refrigeration Condensate Pan Treatment System

EPA Registered
68114-1-38104

- * EPA registered slow release formula
- * Keeps drain pans clean for up to 180 days
- * Eliminates the growth of algae, mold and slime
- * Controls odors
- * Easy installation

Pan-Bar Gold strips have a unique water activated time release design . This product fills the need of providing a foolproof automatic feed system for up to 6 months. The product is specifically designed to treat standing water for the period of time between service and maintenance visits (maximum of 6 months). The active ingredients (50% of product by weight) include: an EPA registered biocide, a corrosion inhibitor, surfactants, and odor counteractants. The product releases only in the presence of water and only metered amounts of actives. The unique design entrapment system does not shrink or melt and stays where placed in the pan. One of the desirable characteristics of this product is the initial shock dose, which occurs during the first 48 hours. Then the product settles down and slowly releases for the remainder of product life.

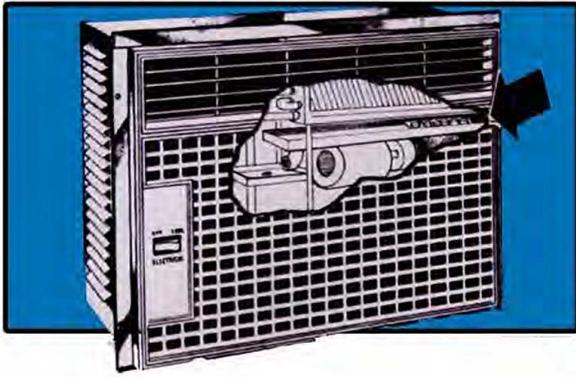

Directions:

Install the proper size Pan-Bar gold strip in the drain pan and place it between the evaporator coil and the drain pan drain opening. Place it in the stream of water flowing from the coil to the drain pan fitting. Replace the strip every 6 months. Wash hands after handling strip. Dispose of old strip in everyday trash.

6 Convenient Sizes

Part #	Tonnage	Size
PB015	Up to 1 1/2 tons	3/4" x 4" x 1/4"
PB025	Up to 2 1/2 tons	1 1/2" x 5" x 1/4"
PB5	Up to 5 tons	1 1/2" x 12" x 1/4"
PB10	Up to 10 tons	1 1/2" x 12" x 5/8"
PB20	Up to 20 tons	3" x 12" x 5/8"
PB50	Up to 50 tons	3" x 24" x 5/8"

Aer-O-Matic Air Conditioning Strips

Part #AC-299

Stops odors and overflow of air conditioning condensation pans.
Eliminate build-up of blockages in pans and drain lines.

Aer-O-Matic Air Conditioner Treatment Strips

- Controls the accumulations of air-borne dust
- Helps prevent corrosion
- Stops solid blockage
- Removes accumulations of scum, sludge and silt
- Keeps condensate pans clean
- Eliminates stale odors
- Prevents overflowing water
- Helps prevent damage to walls, floors, ceilings and expensive personal property

How it Works:

Aer-O-Matic Air Conditioning Treatment Strips are placed into the drain pan so that the condensate water moistens the strip at a distance as far away from the drain hole as possible. Pictured above is a visual way the strips should be placed. The pan should be cleaned before the strips are inserted.

Aer-O-Matic Air Conditioning Treatment Strips start working immediately. The strips prevent and remove accumulation of scum, sludge and slime which block drain openings and lines. It also keeps the condensate pan clean and stale odors are eliminated.

What it is:

Aer-O-Matic Air Conditioning Treatment Strips are a highly effective, surface-active agent which disperses solids, thereby cleaning all surfaces and keeping them free of accumulated debris. It is also a corrosion inhibitor which protects the pan and helps prevent corrosion. It is guaranteed safe for all component materials in the equipment and its piping.

Aer-O-Matic Air Conditioning Strips Packaging

Part# AC-299	100 strips per box
Part# AC-299-5	50 strips per box

Listo-Tab

Floor Drain Protection

Easy to use • Metered Application • Safe • Economical

- Listo-Tab is a time release product. When activated by water in the drain, it produces a continuous metered cleaning action.
- Listo-Tab washing action will clean floor drains and wash away any buildup of scum, sludge and other accumulations from forming in the drain lines.
- Fastest acting and longest acting product on the market.

Used by:

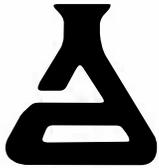

Hospitals • Food Preparation Areas • Food Processing Plants • Schools
• Nursing Homes • Restaurants

Size:

48 grams • 2 1/2" diameter

Packing:

Part # 230-24 • 24 tablets per case

Since 1968 Our Tablets have kept Air Conditioning Systems Operating Efficiently

Away Chemical brought to the market the original, non-toxic, non-corrosive chemical tablets to control slime and sludge in air conditioning condensate pans and drains.

Our products have changed the way condensate pans are cleaned. No longer is it necessary to physically remove the drain pan to clean it. In some cases the entire fan coil or air-conditioning unit would have to be removed to clean the condensate pan. Our tablets clean the pan with a special non-toxic, non corrosive, environmentally safe chemical.

Although other companies have tried to use our EPA registered technology, none have succeeded. Away Chemical continues to lead the industry with their innovative products. Our products are truly the leading, environmentally friendly chemical tablet(s) that continuously clean condensate pans and drain lines.

For those of you who are not familiar with the use of AWAY products with AT-8, this BULLETIN is a brief review of the different formulations, uses and benefits.

CHEM-TAB and other AWAY products formulated with AT-8 prevent condensate drain pans and drains from plugging up. As these tablets dissolve, they plate the pans and drains with "Inviso-guard™" keeping them clean for up to 6 months. They keep scum, sludge and other accumulations from forming in condensate pans and drain lines that eventually plug up the drain so condensate will not drain. Overflow from these pans ruins ceilings, walls, furniture, important papers, rugs, etc. causing hundreds of dollars of damage.

PAN-GEL geltabs with AT-8™ when placed in the pan will lock in place, last for up to 6 months, and are color coded for size. One tablet placed in the pan periodically will prevent the condensate pan and drains from plugging up, consequently no damage by water overflows.

The above inexpensive, simple, positive protection is the first non-toxic*, non-corrosive, safe chemical for condensate pans that can be used on steel, galvanized, fiberglass, painted surfaces and other materials without damage. PAN-GEL geltabs and CHEM-TAB tablets do not release chlorine or other noxious fumes, keeping the condensate pan clean and foul odors are eliminated from air conditioning units.

Evap-O-Matic tablets are great for evaporative coolers. They eliminate the foul and swampy odors, keep the spiders clean, allows the pads to hold more water giving more efficient cooling and prolongs the life of motors and other parts.

To meet the needs of the industry, AWAY CHEMICAL CORP. over time, has made different formulations of tablets with AT-8 for treating larger tonnage units, longer time periods of protection, and other concerns to cover environmental conditions.

*When used in accordance with the label directions

We can private label our products. Call for details.
